TO OUR FRIENDS AND PATRONS:

We have been in the Pecan Nursery Business 22 years now and are the oldest exclusive Pecan Nursery in the State. We feel grateful to all our customers for their continued support, and for the good reports they are sending us about their orchards.

In our main trade territory—Texas, Louisiana and Oklahoma—our trees are proving to be the best in all localities where they have been set. We have a finer lot of trees this year than ever and we want you to have some of them.

The picture on the inside of this catalogue shows the orchard from which we get our budding wood. Come to see us, we want to show you our Nursery and Orchards.

PECAN TREES MAKE THE BEST OF SHADE AROUND THE HOME

PRICE LIST 1928-1929

SIZE	EACH	PER 10	PER 100	PER 100 in 1000 lots

8 to 9 feet.....	2.50			
9 to 10 feet.....	3.00			
10 feet and up.....	4.00			

The above trees may be had in the following varieties: Odom, Stuart, Money-Maker, Sabine, Schley and Burkett.

CONDITIONS OF SALE—We take great care to send out only strong, vigorous trees, budded and grafted with the above mentioned varieties.

The above prices are for strong, well grown trees, carefully packed and delivered to the express or railroad company at Newton, and Jasper, Texas, or Anacoco, La.

We have no agents. We sell direct to the trade and save our customers the profit that agents would get. Our reputation is at stake, therefore we are obliged to treat every customer with the same fairness and honesty.

Cash should accompany all orders not accompanied by satisfactory references.

THIS PICTURE TAKEN IN OUR NURSE

NUTS — We have a bearing "Pecan Grove" of the leading varieties, such as Stuart, Money-Maker, Pabst, Sabine, Curtis, etc. Write for prices.

THIS PICTURE TAKEN IN OUR NURSERY. BETTER PECAN TREES ARE NOT GROWN

TO GROW PECANS—It is important as in all other enterprises, to begin right and continue right. First, get our bred up paper shell pecan trees raised here in East Texas, where the best root system is obtained, then plant them carefully in ground well prepared for their reception. Cultivate and fertilize them well and you will soon have an orchard looking like the one on this folder.

Pecan orcharding has passed the experimental stage and is now recognized as one of the most profitable industries in the South. All persons who take advantage of their opportunity now and plant a grove of pecans will have a sure income the balance of their lives.

VARIETIES—We have selected varieties that have proven by our test to be the best bearers and we will never propagate anything that we cannot recommend.

HOW TO PLANT—Dig a hole about two feet in diameter and deep enough to let the tree set as deep, or one inch deeper, than it stood in the nursery. Spread the roots out to their normal positions, being careful to cut off all bruised roots with a sharp knife, cutting from the under side.

GUARANTEE—We guarantee our trees to be true to name, and if by accident any should be sent under wrong label, they will be replaced free of charge or money refunded. We assume no further responsibility.

The necessity of setting out a good orchard cannot be too forcibly impressed. If you have the land, by all means set out some pecan trees. The initial cost is so insignificant as not to be considered when estimating the ultimate value of the orchard.

We will gladly answer any question you may ask regarding setting out your orchard, and if you so desire, we will take pleasure in visiting your place, inspect your land and pass on the merits of an orchard on your place. We have made a special study of the nursery business and our experience and time is placed at your disposal. If you have business that takes your time we can set out the orchard for you.

NUTS — We have a bearing "Pecan Grove" of the leading varieties, such as Stuart, Money-Maker, Pabst, Sabine, Curtis, etc. Write for prices.

R. L. ODOM'S ORCHARD, WHERE WE GET BUDDING WOOD FOR OUR NURSERIES

OUR LOCATION —We are located in East Texas, 150 miles north of the Gulf, where climatic conditions are most favorable for growing strong sturdy trees.

Sabine Valley Pecan Nurseries

R. L. ODOM, General Manager
JASPER, TEXAS

The Safest Investment in the South Today is a Paper Shell Pecan Orchard.

**Write Us for Any Information You May Need
About Starting Yours.**

This orchard was set with our trees twelve years ago by Mr. W. C. Lenahan, of Toledo, Texas. Mr. Lenahan is 73 years old and is still setting Pecan trees every year.

This orchard averaged 400 pounds to the acre at 11 years old, and has been bearing since it was four years old.

The crop between these trees is Soy Beans.
